<b>Key topics to revise for mocks</b>
The C3 media exam is different to most examinations as there isn't a paper with questions as such. Instead, students have a period of time to prepare assets and materials that they will then use to Photoshop materials on the day.
<b>Intervention/Revision/Coursework sessions</b>
Media lessons will be given over to the preparation of assets and in practicing their Photoshop skills. There are optional P6 sessions available on Mondays but these are not compulsory.
